

How to Play BIG BULL

Rules

The basic rules are the same as the COUNT-UP games, the only difference is that all the area inside the triples is considered as the "BULL". Hitting the inner singles and single BULL scores 50 points, and hitting the Inner Bull is called SUPER BULL in this game, and scores 70 points.

(*This game is only for boards that light up.)

ONE POINT!

Beginners should try to aim for the area inside the triples ring, and moderate players should aim for the Inner Bull.

Number of players

2 to 4 people (In a Doubles Game, 3 to 8 people)
