Registering

In SUPER LEAGUE, players register as teams of 4 players or more, whose combined rating should not exceed the cap set for the Flight (level) they are registering in.

**Players need an established DARTSLIVE Rating on their DARTSLIVE Card to register.*

Ask your venue or your Operator to get the registration form and participate!

Playing season's matches

Teams then play matches against other teams of their Division during the season, either in the venue they registered in or at their opponent's venue, according to the season schedule.

Qualifying for the Finals

All players having played at least 40 games during the season, and whose team didn't forfeit any match, can register to come and play the league finals FIESTA held in Las Vegas after the season. Teams finishing top of their league division will advance directly to the Single Knock-Out phase of the finals, without having to go through the Round-Robins.

Becoming Champion!!

Winner of each Flight at the FIESTA will become CHAMPION of the SUPER LEAGUE, and bring back the Prize.

PLAYING THE GAME

Starting Your Match

- Matches are scheduled at the start of a league on a date and time requested by the league coordinator. If a match is not displayed on the board, please contact the league coordinator.
- We strongly encourage that all matches begin within 15 minutes of the stated starting time. Please try to communicate with the opposing team to begin on time. Be aware that in the **Remote Match** there is a 30-minute timer from the scheduled start time.

Operating the Machine/“Coin Up” Procedure

- **Do not insert any monies into the machine until prompted for credits from the league match.** Monies inserted before the menu is displayed will not count towards the league match.
- A blue dialogue box will appear after the match has started and both teams have at least one DARTSLIVE card inserted in the board.
- **No refunds will be given for credits inserted prematurely.**

Lineups

- Lineups will be created on a game-by-game basis. The **Remote Match** system will only display the team's lineups once both teams have entered the player cards into the machine and the point cap is met.

Throwing Order

Local Match

- Throwing Order will be decided by Corking.
- The Coin Toss function of the DARTSLIVE2 will be used for deciding who throws the cork first.
- The player who throws closer to the center can decide the throwing order.
- If the first player's dart hits the exact center of the BULL, the second player is required to verify the location, remove the first dart, then throw the cork.

- For the first leg, the throwing order will be decided by the winner of the cork.
- For each additional leg after the first leg, the loser of the previous leg will throw first.

Remote Match

- The Remote Match system will automatically select which team starts first, there is no option for cork.
- The Change Button will only need to be pressed if all 3 darts do not score as player change is automatic in the Remote Match system.

Incorrect Scoring / Game Freeze by Darts Machine

Local Match

- If a dart machine records the score incorrectly and the darts remain stuck in the board, the “Reverse A Round” function will be used to reverse the score.
- The correct score will be entered by pressing the target segment where the dart is stuck. If the correction of the score is agreed upon by both parties, the game can continue.
- Incorrect scores cannot be corrected if the darts in the board are removed.
- If the game is interrupted by a power failure, the machine should be restored to the last known play point. If the restoration is not possible, the leg will be replayed.

Remote Match

- The machine is deemed correct no matter what the dart scored. If there is an ongoing issue with the dart machine, move to another machine in that location and resume the game.
- In the event that a team moves to another machine in the same location, they must contact the operator of that machine to inform them of the change.
- In the event of a game freezing during the game, the match will automatically resume back at the last record saved by restoring the machine.
- Additional funds are not required if the game freezes.
- To reset the machine, use the Power Switch located on the bottom of the left side of the machine. Turn the machine off. Verify the machine has been turned off. Wait 10 seconds, and then turn the machine back on.

Tie Break

- In the event of a tie at the end of league play, the following priority list will be used to break the tie:
 - Legs Won
 - Matches Won
 - Most Recent Head-to-Head Match Up
